WASP | WALLENBERG AI, AUTONOMOUS SYSTEMS AND SOFTWARE PROGRAM

Course Certificate for the
WASP Project Course

This is to certify that

César Soto Valero

has completed the 6 credit WASP Project Course during fall 2019
Examination date: January 14th, 2020

_____

Associate Professor Daniel Axehill
Course Examiner

WASP Graduate School

The course has been given by the WASP Graduate School. More information can be found at
http://wasp-sweden.org/graduate-school/

Wallenberg AI, Autonomous Systems and Software Program (WASP) is Sweden's largest individual research program ever, a major national initiative for strategically motivated basic research, education and faculty recruitment. The program addresses research on artificial intelligence and autonomous systems acting in collaboration with humans, adapting to their environment through sensors, information and knowledge, and forming intelligent systems-of-systems. Software is the main enabler in these systems, and is an integrated research theme of the program.

The vision of WASP is Excellent research and competence in artificial intelligence, autonomous systems and software for the benefit of Swedish industry.
